

## To Produce Famous Products

One October day in 2019, the respected Comrade **Kim Jong Un** visited the Samjiyon Bog Bilberry Drink Factory.

Looking round the factory, he expressed great satisfaction at its construction.

Feasting his eyes on the products piled up in the storehouse, he said that they looked like bullets fully loaded in the magazine of a submachine gun.

Paying attention to the taste of the foodstuffs to be supplied to the people, he asked the accompanying officials to have a taste of them and present their opinions.

After listening to an official's comment, he said that the factory should develop its bog bilberry products into famous ones so as to monopolize their markets and make the city of Samjiyon famous with its products.
