

## First Guidance Trip of New Year

One day in January 2017, the respected Comrade **Kim Jong Un** visited the Pyongyang Bag Factory.

Being shown around it, he told officials that with a bag factory built in every province, schoolchildren across the country could be provided with new bags every two or three years.

He went on to say: By carrying foreign-brand bags on their shoulders in their childhood, they will not be educated to cherish the pride that our country is the best and foster patriotism. We should see to it that our children wear school uniforms and use schoolbags and other school things of our own making; only then can the feeling of holding dear and valuing our own things be cultivated in their mind.
