

At Construction Site of People's Hospital in Samjiyon

One October day 2019, the respected Comrade Kim Jong Un gave field guidance at the then Samjiyon County People's Hospital under construction.

After giving instructions on building it as a model of regional hospital, he said with pleasure: I was told that the locals in the county, whenever passing by the construction site, saw the artist's impression and ground plan and felt happy. But they cannot imagine how excellent this hospital would be at the sight of the ground plan. When this hospital is inaugurated and they benefit from it, they will like it more than others.

Looking around the officials, he continued: Now many projects are under construction in the township of Samjiyon. But what I like most is the construction of this hospital. The construction of Samjiyon County People's Hospital should be completed at the earliest possible date.
